BATTERY PAR 61 Operating Instructions

Should you need assistance, please call our technical help line at 1-646-758-0144, 24 hours a day/7 days a week. For how-to videos and other helpful information, visit rockvillesupport.com/battery-par-61 or scan the QR code.

Settings

Use the MODE button to enter the settings menu. Use the UP and DOWN buttons to select the desired setting and set their values. Press and hold the UP and DOWN buttons to scroll quickly through the menu options. Press the ENTER button to save your selection. If you power off your unit, upon being powered on, it will remember your previous settings. Press MODE to exit.

Display Mode	Value	Description
A001	A001 – A512	Set DMX address

10	Color speed	0 – 255	Adjust color change speed for CH9 modes

Remote Control Functions

1. Dimming/Speed: Adjusts the brightness of the fixture when manually adjusting colors (custom color dimming mode). In all other modes, they are used to adjust speed.

2. ON/OFF buttons. Please note, these buttons will turn off the bulbs, but the unit will remain on.

3. Red, Green, Blue, and White LED buttons

4. (a) Amber and (b) UV buttons

5. Press this button then use the Dimming/Speed buttons to cycle through the color presets.

6. AUTO (Color Cycle Mode): Cycles through colors. Use the Dimming/Speed buttons to set the speed at which the unit will cycle through colors.

7. Strobe: Select your color from the buttons then press this button to activate strobe mode.

8. Fade (Color Fade Mode): The unit will fade from one color to next. Use the Dimming/Speed buttons to set the speed at which the unit will fade between colors.

9. Sound: Activate/deactivate sound mode. Use the Dimming/Speed buttons to adjust each of the 4 sound modes. Mic sensitivity is adjusted via the unit's settings menu.

10. Color select: use these buttons to select a specific pre-mixed color.
