b. Wire antenna (included) ports

12. AM Antenna (included) ports

13. RCA Audio out

14. Voltage selector switch (110v/220v): For US owner's, set the selector switch to 110. For owner's outside of the US, refer to your electricity provider for your country's AC voltage.

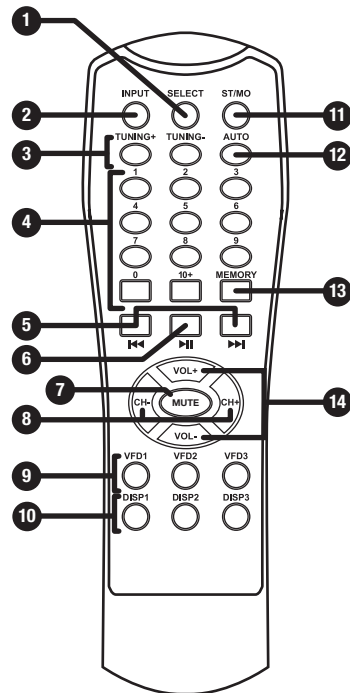

Please note: Using the incorrect voltage may cause damage to the unit.

15. User serviceable fuse (see the FUSE REPLACEMENT section on page 5)

16. IEC AC power socket

REMOTE CONTROL FUNCTIONS

1. Direct frequency selection key. Push the key then use the number pad to select the desired station. For example, if you want to select the station 102.7FM Push the Select button then enter 10270 on the keypad.
2. Input select key. Allows you to cycle between AM/FM, USB and SD card input.
3. Tuning +/-: These keys allow the user to move through the stations in single increments.
4. Number pad: Used to select programmed stations, store stations, and directly select frequencies. Please note the 10 key can be used as the 0 key as well. It can also be used to directly select tracks in USB/SD mode.
5. Previous/Next buttons: In USB/SD mode only, move back or forward through tracks.
6. Play/Pause button: Play and pause USB/SD playback.
7. Mute key.
8. CH-/CH+: Press to select previous or next saved station.
9. Display brightness adjustment keys.
10. Spectrum display mode select keys.
11. Stereo/mono selection key (radio mode only).
12. Auto search stations and save presets.
13. Memory: Press this key to store desired stations.
14. VOL-/VOL+: Press to adjust the volume level. Press and hold to rapidly adjust volume.

TUNER OPERATION

Auto Scan: Press and hold Tuner + or Tuner - button for two seconds to scan stations.

Manual Search: Quickly press Tuner + or Tuner - to search stations in single increments.

Programing Stations: Once you've located the desired station, press the MEMORY button on the remote control to save the station.

Selecting Programed Stations: Use number keys to select programed station. For numbers above 10, use the 10+ button. For example, to select programed station number 15, press the 10+ button and then the 5 button. To select programed station 28, press the 10+ button twice and then the 8 button. Use the same procedure for all other programed stations. Up to 40 stations can be saved. You can also use the CH- and CH+ keys on the remote control to toggle through the stations.
