

RXC50D V2

50 FARAD HYBRID ION CAR CAPACITOR
w/VOLTAGE & AMPERAGE METERS

WIRING GUIDE

Thank you for purchasing this Rockville RXC50D V2 hybrid ion capacitor. Please read this owner's manual carefully for proper use of your capacitor. Should you need assistance, please call our technical help line at 1-646-758-0144, 24 hours a day/7 days a week.

Scan the QR code or go to rockvillesupport.com/rxc50d-v2 to access how-to video(s), the owner's manual, and other important information you may need to get the most out of your item.

FEATURES:

- Blue LED Voltage / Amperage display*
- Amplifier style housing
- Heavy duty, platinum plated bolt-down terminals
- Saves electric current and accurately detects the working current
- Polished chrome trim with an ultra smooth gloss black finish
- Stealth removable protective terminal cover
- IC controlled circuitry automatically alarms when the voltage is above 18V and under 10V

* Due to limitations of the digital display, the maximum display readout is 18.8V, though the capacitor functions up to 24V.

SPECIFICATIONS:

- Operating Voltage: 10 – 16V DC
- Surge Voltage: 24V DC
- Capacitance: 50 Farad
- One 0 Gauge and three 4 Gauge amplifier style input/output terminals
- Unit dimensions (Inches): 11.93 L x 6.54 W x 2.84 H
