OPERATION

Power ON: Long press the **Power** button. The unit will automatically go into Bluetooth pairing mode.

Bluetooth
Pairing: Power ON the unit or press the **M** button to switch to Bluetooth mode. Look for and select RockShip on your Bluetooth device's list of available devices. You will hear a tone if pairing has been successful. If there is no Bluetooth input, the unit will automatically power OFF after 10 minutes.
Volume Control: Press the **+** or **-** button to increase or decrease the volume.
Skip Songs: Long press the **+** or **-** button for the next or previous track.
Answering/Ending Calls: Double press the **Play/Pause** button to answer incoming calls. Press the press **Play/Pause** button once to end the conversation.
Disconnect Bluetooth: Long press the **M** button to unpair from Bluetooth device.

TWS
Pairing: Power ON both units and ensure they are in Bluetooth mode. Long press the **LED** button on one of the units to initiate TWS pairing. This will be the primary unit and will control all functions. To exit TWS mode, long press the primary unit's LED button.

FM Radio
Radio mode: Press the **M** button to switch to Radio mode.
Antenna: Plug the included 3.5mm to 3.5mm cable into the **AUX** port. This will act as an antenna.
Station Autoscan: Press the **Play/Pause** button to start autoscan. Stations will be automatically saved.
Volume Control: Press the **+** button to increase the volume or press the **-** button to decrease the volume.
Stations: Long press the **+** button for the next station. Long press the **-** button for the previous station.

USB/SD
Insert USB flash drive or SD card (up to 32GB) into the corresponding port at the rear of the unit. Unit will automatically begin playing music. Press **Play/Pause** button to pause music.
Volume Control: Press the **+** or **-** button to increase or decrease the volume.
Skip Songs: Long press the **+** or **-** button for the next or previous track.
Please do not remove USB drive or SD card while in use. Doing so may damage them.

Auxiliary
Press **M** button to switch to AUX mode. Use the included 3.5mm to 3.5mm cable to connect your external audio device.

LED Lights
Press **LED lighting** button to turn on the LED lights. To switch between the different lighting modes, press the **LED lighting** button again. There are 7 colors and 2 modes: Steady LED light or LED flashes to the beat of the music.

Charging
When the battery charge is low, you will hear a tone indicating that the unit must be charged as soon as possible. Connect the included micro USB cable to the micro USB port at the rear of the unit. Connect the other to an AC adapter (not included). Charging voltage is 5V/2A. The indicator LED will remain on while charging and will turn off once the unit is fully charged.

Reset
The unit can be reset to its orginal factory via a button inside the 3.5mm jack. Insert a pin and long press to reset.

TROUBLESHOOTING

No Power	• Make sure the battery is fully charged. • If not, plug the unit to a 5V/2A power source and charge for 2.5 hours for a full charge.
Bluetooth pairing fails	• Make sure both devices are turned on and that your BT device is discoverable. • Make sure you've selected the proper source. • Make sure the BT device is within 5ft of the unit. • Move both devices away from other BT devices, microwaves, wireless routers, and other electronics. • Make sure the unit is not paired to another device.
No SD or USB playback	• Make sure you're in the proper mode. • Check that the SD card or USB flash drive is not damaged. • Make sure that the SD card's or USB flash drive's capacity is no more that 32GB.
Poor FM radio reception	• Make sure the 3.5mm cable is plugged into the AUX port as it will act as an antenna. • Move the unit and the antenna for improved reception.

FEDERAL COMMUNICATIONS COMMISSION COMPLIANCE INFORMATION

Responsible party name: Rockville

Address: 600 Bayview Ave,
　　　　　Entrance A,
　　　　　Inwood, NY 11096

Hereby declares that the product Rockville RockShip Bluetooth speaker complies with FCC rules as mentioned in the following paragraph:

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
